RE: WT Docket No. 11-65

Dear Chairman Genachowski:

We in the Cobb County, GA business community envision a bright future powered by improvements in telecommunications, and with its announcement to merge with T-Mobile, AT&T has taken steps to further this vision across the country. That is why our Chamber of Commerce has taken a supportive position on the acquisition.

It is our belief that this combination will provide stronger communications technology, faster speeds and even wider coverage for consumers and businesses. The marriage of the two compatible systems from AT&T and T-Mobile will enhance the companies' wireless network, enabling it to be the fastest fourth generation technologies to underserved areas nationwide.

Additionally, AT&T has improved its abilities to introduce even better products and services at affordable prices. As new technologies are introduced to the marketplace, everyone benefits.

Our Chamber represents more than 2,500 local businesses, many of which already recognize and benefit from the advantages of wireless technology. By connecting businesses and individuals to this new, fast-paced environment, we can look forward to an even stronger wireless foundation to support the increasing demands of our membership. The result will be growth in our economy and in our job market.

AT&T has a significant employment base in Cobb County and has been a strong corporate citizen in our state. The quality of its products and services is excellent. We believe that this business transaction will be good for Cobb County, but it also will be good for businesses and consumers around the country.

Sincerely,

Rob Garcia  
Chairman  
Cobb Chamber of Commerce

CC:  
Commissioner Michael Copps  
Commissioner Robert McDowell  
Commissioner Mignon Clyburn  
Commissioner Meredith Attwell Baker
